April 2018

Hello from Hansford Sensors!

We hope you are all well and have had a great first quarter of the year.

The Company has been very busy so far this year and it's only April! We have just come back from another great show at IMVAC Asia and it was fantastic to meet current and new customers alike.

Currently Hansford Sensors are developing some new products, such as our new moulded data collector cable - which you can read about below.

We look forward to the rest of the year!

Warmest regards,

Chris Hansford

2018 BTCC season gets underway

Hansford Sensors-sponsored British Touring Car Championship driver Tom Ingram has revealed the new livery for his #80 Toyota Avensis saloon at the Season Launch at the end of March.

Getting to know the new HS-AC146 coiley cable

Over the years we have listened to our customers and have now, after extensive testing, launched the first of a our new fully moulded data collector cables.

With the first race at Brands Hatch under the belt, Tom managed to land first place in the driver's standings. A great start to 2018!

We're proud to be supporting Tom again in 2018, with his focus on clinching the BTCC title, it looks set to be another extremely exciting season.

The AC146 is a 2 Pin MS to M12 coiled cable, fully compatible with the CSI2140 data collector.

Over the coming months this new family will expand, to include a full range of cables compatible with the commercially available data collectors that are currently on the market.

The AC146 will be available for delivery ex stock by the end of May

The greatest showman

We are looking forward to another packed season of shows and exhibitions. The Company have recently returned from shows in India, Singapore and Poland, and are attending a USA show this week. We will be attending IMVAC Europe in June, and will be holding a special Hansford Sensors meeting on the Friday.

Proceeding this is the annual calendar of global events. We look forward to seeing you soon!

Award winning start to 2018

What a great start to the year it has been. We were crowned regional winners at the EEF Future Manufacturing Awards and national runner-up. We then went onto be crowned regional winners for technology and engineering at the Insider Manufacturing Awards too! We look forward to seeing what else 2018 holds.
