December 2017

## **A very Merry Christmas from Hansford Sensors**

The festive period is well and truly upon us! The tree is up, the lights are on, and everyone is in good spirits.

We continue to build and grow our offering to better support you, our customers and partners. Brand awareness is forever increasing, thanks to the exhibitions we do, networking opportunities, and our print and online presence. The Hansford Sensors product range has also increased in 2017, with the addition of the conduit accelerometer and new coiley cable.

The Company has had a fantastic year, again building on the success of 2016. The business is looking to exceed targets once again, and that is down to you – our faithful customers. Thank you once again for your continued support and custom.

Have a very Merry Christmas and I look forward to working with you in 2018.

With kindest regards,

Chris Hansford

### **EEF Future Manufacturing Awards finalists**

At the start of this year Hansford Sensors entered the EEF Future Manufacturing Awards, for Export Growth. Last month we were proud to be crowned winners for the South-East region.

After winning the written entry for the area, the business then went on to present to the judges in Birmingham last week. We have (hopefully) wowed them with our exporting strengths and the volume of growth that the Company has experienced in the past 10 years – and there has been huge growth. Our team has grown by 16% this year alone!

National winners will be announced in the New Year. Fingers crossed...

---

### **Hansford Sensors around the world**

The Company has been present at, and exhibited at, many different conferences and exhibitions all around the world in 2017.

Most recently Hansford Sensors exhibited at IMVAC and IMC in the USA, and SPS IPC Drives in Germany. All 3 shows proved to be a great success and it is always great to meet new customers and greet current ones.

Be sure to keep your eyes peeled for updates on our website, for 2018 events near you. We look forward to seeing you!

### **Events**

Chris and all the Hansford Sensors Team would like to wish you all a very Merry Christmas and a Happy New Year! We look forward to working with you all in 2018.
